Preface

Macroeconomics was created to provide the learners with the syllabus of basic macroeconomics. Hence this module serves as a useful reference for student to understand about the concept, theory and calculation in macroeconomics. This module aims to make the learning macroeconomics interesting, easy and applicable to daily life. It presents the contents in a simple way to student. It introduces the concept and theories economics to the students using engaging examples. In studying economics, we truly believe in the importance of understanding and applying the concept acquired rather than memorizing and regurgitating facts. We hope you will enjoy this book.
